

12/11/2017

To our customers,

The Hamoi Brothers Company Ltd. announces that following a test conducted by the Food Service, the presence of *Listeria monocytogenes* in the frozen product "**Whole Kernel Corn**" of the "**HaMuvharim Shebakfu'im**" brand was found in 1 kg / 2.5 plastic bags Kg with **expiration date 25.9.19**.

As a precaution and even though the guidelines for consumption of the product are boiling before consumption - the public is asked not to consume the product and return it to the stores from which it was purchased.

Listeria is a bacterium that can cause illness in sensitive populations such as children, the elderly, and have weakened immune systems and cause miscarriage in pregnant women.

The company is working to collect the product from the stores.
