This recall is an extension of the recall initiated on 12-05-2020.

Due to concerns over *Listeria Monocytogenes* in samples of additional batches manufactured by the factor, the Company decided to err on the side of caution and initiate an extension of the voluntary recall announced on 12-05-2020.

As part of the Company's concern for public safety, we wish to issue a recall for our product from the following dates:
