Announcement from "Al-Othmani Salads"

Following a sampling check of the Ministry of Health's Food Service, there is a fear of the presence of *Listeria monocytogenes* bacteria is suspected to be in the following product: Corn in Mayonnaise dated 07/11/11 in packages of 250 g and 400 g.

The company, in coordination with the Ministry of Health, collects all the relevant products from the market and asks consumers not to consume the product.

*Listeria monocytogenes* is a bacterium that can cause disease in a high-risk population such as a weakened immune system, the elderly or cause miscarriage in pregnant women.
