Partner Search Tool (PST)

The Partner Search Tool (PST) is designed to search and find partners for joint research projects between scientists, clinicians or other interested parties in Israel and Saxony. Using this tool will allow you to publish your research interests and look for those of others in order to create grounds for partnerships.

Country / Region Germany/ Saxony

Summary of research topics:
The Mental Health Services Research Group at the Department of Psychiatry and Psychotherapy at the Dresden University has a special focus on studies on mental health services utilization and on the effectiveness of services and interventions. In recent years, research has been conducted e.g. on refugees and asylum seekers suffering from PTSD, patients with dementia, and chronic mentally ill living in supported housing (see http://www.psychiatrische-versorgungsforschung-tu-dresden.de).
