Partner Search Tool (PST)

The Partner Search Tool (PST) is designed to search and find partners for joint research projects between scientists, clinicians or other interested parties in Israel and Saxony. Using this tool will allow you to publish your research interests and look for those of others in order to create grounds for partnerships.

Name: Stefan R. Bornstein
Title: Prof. Dr. med. Position: Chair of Medicine
Tel.: +49 (0)351 458 - 59 55 Fax: - 63 98
E-mail: Stefan.bornstein@uniklinikum-dresden.de
Name of Institute: Department of Internal Medicine

X Academic
X Hospital including
Industry (including SME)

Country / Region: Germany / Saxony

Summary of research topics:

1. to define the basic mechanisms and the clinical implications of cellular interactions and crosstalk in endocrine tissues with special interest in the adrenal gland
2. to understand the endocrine function of adipose tissue and its involvement in the development of obesity-associated diseases, including diabetes
3. establishment of a constantly developing unit for translational research in the Dresden University, an exemplary academic institution in EU committed in excellence in research, technology and patient care

Key Words (5):
Translational Medicine
Beta-cell Transplantation
Lipidomics
Adrenal Function
Diabetes
